

Fan with LED Lamp and Arm.

Illuminate and Provide Optimal Ventilation for your Loading Docks.

Technical Description.

This set is ideal for ventilation, lighting and energy saving. It includes a radial blower for drying and ventilation of cold rooms, with three speeds, and a 50 watt LED projector for outdoor use with IP65 protection.

It offers energy savings of up to 90% compared to conventional halogen projectors.

The projector is designed for outdoor use with an IP65 protection level, which guarantees its resistance to adverse weather conditions.

Technical Specifications of the Fan.

- Voltage: 230V
- Frequency: 50Hz
- Motor power: 0.56 kW
- Maximum amperage: 2.41 A
- Speeds: 3
- Air flow: Max. 1800 m3/h
- Weight: 12kg
- Dimensions: 475×425×475mm

Optionally, an adapter with 3 air outlets can be added.

Technical Specifications of the LED Lamp.

- Luminaire efficacy: up to 110lm/W
- Beam angle: 100°X100°
- Mounting bracket for tilting up to 180°
- Power factor: > 0.80
- Operating ambient temperature: -20°C to 50°C
- Luminous flux: 5,500Lm (4000K)
- Luminous efficacy: 110lm/W (4000K)
- Color adjustment standard deviation: <5 sdcmm
- Light tone
- Connection via 1m cable, wiring required.
- Number of switching cycles: 100,000
- Body material: Aluminium/Polycarbonate (PC)
- Cover material: Tempered Glass.
- Dimensions: 180×46 mm
- Cable length: 1000 mm
- Arm: Closed 800mm / Open 1400mm
